DISCUSSION

The current Capital Improvement Program identifies construction of the Antelope Valley "N" Street Bridges Project to occur in fiscal 2007-2009. The identified funding sources for construction of the project include Highway Allocation Funds (SO) and Federal Aid - Urban Area Projects Funds (PC).

Federal funds will be utilized for that portion of the project construction and construction phase engineering services that are not eligible work items associated with the U.S. Army Corps of Engineer's Antelope Creek Flood Control Project. In accordance with federal requirements, the local sponsors cannot utilize other sources of federal funds as part of their required local match for the Antelope Creek Flood Control Project.

The schedule for this project has been developed to allow construction of the new bridge at "N" Street to begin in Fall of 2007 with substantial completion of the project in November of 2008. The work associated with construction of the new bridge at "N" Street will be completed under total closure of "N" Street between 21st and 23rd Street.

A public information meeting for the Antelope Valley Projects was held on June 24, 2003. At the meeting no one spoke in opposition to the "N" Street Bridge Project.

POLICY OR PROGRAM CHANGE: No

COST OF TOTAL PROJECT: \$4,242,000.

SOURCE OF FUNDS: City and Federal
